

SKYLINE PRODUCTS

Since 1999

- 1** Domestic Pressure Booster
 - 2** Hot Water Circulation Pump
 - 3** Commercial Pressure Booster
 - 4** Industrial Pressure Booster
 - 5** Domestic Pumps
 - 6** 2 in 1 Automatic Pump
 - 7** Automatic Water Level Controller
 - 8** Solar Water Heater
-

DOMESTIC PRESSURE BOOSTER

TECHNICAL SPECIFICATION

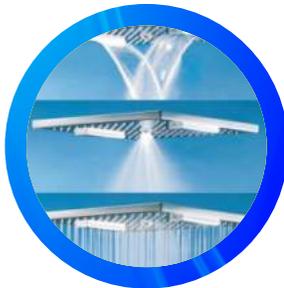

- 💧 **Temperature from 20°C upto 90°C**
- 💧 **Built-in thermal protection**
- 💧 **B or F Class Insulation**
- 💧 **80 Start / Stop per hour**
- 💧 **Electro-coated cast iron parts - free from corrosion**
- 💧 **High efficient motor** 💧 **Energy Saving**
- 💧 **SS Diffuser & Impeller**
- 💧 **Long life components are of corrosion and wear resistance stainless steel**

DESIGN FEATURES

- 💧 **Fully Automatic ON / OFF with Display**
- 💧 **Equal Pressure for all Outlets**
- 💧 **Dry Run / Overload Protection with Auto Restart**
- 💧 **Auto Manual Selector Switch**
- 💧 **Water Storage in Pressure Tank Eliminates Frequent ON / OFF of the Pump**
- 💧 **Silent Operation** 💧 **Compact Design** 💧 **High Reliability**

APPLICATION

CIRCULATION PUMP

Since 1999

TECHNICAL SPECIFICATION

- 💧 **Temperature from 20 °C upto 90 °C**
- 💧 **Built-in thermal protection**
- 💧 **B or F Class Insulation**
- 💧 **80 Start / Stop per hour**
- 💧 **Electro-coated cast iron parts - free from corrosion**
- 💧 **High efficient motor** 💧 **Energy Saving**
- 💧 **SS Diffuser & Impeller**
- 💧 **Long life components are of corrosion and wear resistance stainless steel**

DESIGN FEATURES

- 💧 **Suitable for all type of Solar Water Heater & Boilers**
- 💧 **Automatic Programmable Timer for Circulating Hot Water**
- 💧 **Thermostart Control Panel**

COMMERCIAL PRESSURE BOOSTER

Since 1999

DESIGN FEATURES

- Fully Automatic ON / OFF
- VFD - Variable Frequency Drive
- Dry Run / Overload Protection
- Phase Failure Protection
- Compact and Reliable Design
- SS Manifold
- Equal Pressure for all outlets
- PLC - Programmable Logic Control
- High / Low Voltage Protection
- Easy to Install & maintained
- Zero Noise & No Vibration

Applications:

Hospitals, Hotels
Hostels, Complexes

Schools
Colleges

Drip Irrigation
Sprinkler

Flush outs

Building Curing

Group Houses
Apartments

INDUSTRIAL PRESSURE BOOSTER

Since 1999

BENEFITS

- 💧 **Ideal for pressure boosting without overhead tanks**
- 💧 **Smooth, soft Start / Stop - Increase pump and motor life & reduce water hammer**
- 💧 **Continuous Water supply due to standby pumps**
- 💧 **PLC for every application resulting in optimum performance and energy saving**
- 💧 **VFD controls for power saving solution**
- 💧 **VFD automatically adjusts speed to maintain desired water pressure as flow varies**
- 💧 **Equal Pressure for all outlets**

Applications:

Dyeing & Boilers

Processing Industries

RO, Softner plant

Fire Fighting

Mist Cooling

Food & Vegetable Cleaning

DOMESTIC PUMPS

Since 1999

DOMESTIC PUMPS

Since 1999

SELF PRIMING MONOBLOCK PUMP

AUTOMATIC WATER PUMP

Since 1999

DESIGN FEATURES

- 💧 **Fully Automatic**
- 💧 **Water Proof Imported Float Switches**
- 💧 **Pump Automatic ON when the overhead tank is empty & sump is full**
- 💧 **Pump Automatic OFF when the overhead tank is full & sump is in empty**
- 💧 **Dry Run / Overload Protection**
- 💧 **Individual Indication for all Functions**

TO SAVE

- 💧 **Electricity**
- 💧 **Precious Water**
- 💧 **Precious Time**
- 💧 **Money**

AUTOMATIC WATER LEVEL CONTROLLER

AQUA SWIFT - ELITE

AQUASWIFT Automatic Water Level Controller is a unique product of SKYLINE Company. It is manufactured duly considering the requirements and demands of various customers. It is a completely Automatic System with built in advanced "Pump set Protection Circuitry".

DESIGN FEATURES

- 💧 **AQUASWIFT** automatically switches **ON** the motor when the over head tank is empty
- 💧 **AQUASWIFT** automatically switches **OFF** the motor when the over head tank is full
- 💧 **AQUASWIFT** automatically switches **OFF** the motor when the sump tank is empty
- 💧 **AQUASWIFT** automatically switches **ON** the motor when the sump tank is full
- 💧 **AQUASWIFT** protect the pump from power fluctuation
- 💧 **AQUASWIFT** protect the pump from Dry Run/Overload

APPLICATION

|----------------------|-------------|
| 💧 Independent Houses | 💧 Hostel |
| 💧 Apartments | 💧 Hotels |
| 💧 Industries | 💧 Hospitals |

SOLAR WATER HEATER

Since 1999

Save Money Every Day

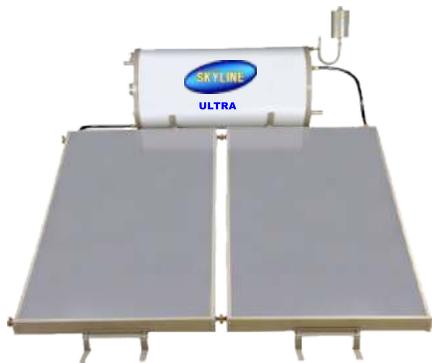

Enjoy High Pressure Hot Water Bathing

Extreme Performance Under Hard Water

SPRING

ULTRA

ELITE

- Pressurised for all modern bathing
- Zero blockages due to heat exchanger system
- Corrosion - free System
- Most efficient heating performance
- Highest quality design
- Hygienic and safe
- Total Peace of mind
- Long lasting

ENERGY SAVING

It Minimises the use of electricity by maximising the use of natural resource of the sun.

CENTRALISED

A Centralised system to efficiently channel hot water to all essential parts of your home like the bathroom, kitchen and utility areas

COMFORTABLE

Provides the comfort of a warm shower during rainy day or cold morning.

ENVIRONMENTALLY FRIENDLY

Minimises impact on the environment through efficient and environmentally friendly use of energy

CONVENIENCE

Designed to give you optimum convenience by providing immediate hot water at all time.

SAFE

Eliminates the potential of electrical hazards.

Application

Houses

Hospital

Hotels

Bunglows

Apartments

Industrial

SOLAR WATER HEATER

Since 1999

Hot water bathing at an affordable cost

Quality tank and collector

Trusted brand

Long lasting

High performance

Benifits:

Glass tube technology for quicker heating

Three Layer Copper Coated tube for fast heating

Efficient Heating even in cloudy weather

Highest Quality Design

Hygienic and safe

Corrosion - Free System

Zero Blockage
